

InCrafftto Python Full Stack Developer Program

with Generative AI & Cloud Integration
Master Full Stack Python Development enhanced with
AI and Cloud technologies.

- ✓ **Duration: 6 Months**
- ✓ **Mode: Offline (In-Person Classes)**
- ✓ **Languages: Hindi & English**

COURSE OVERVIEW

The **InCrafter Python Full Stack Developer Program** is an industry-relevant, project-based training program that prepares you for modern web and AI-integrated development roles. This unique program combines Python full-stack technologies with **Generative AI** (GenAI) and **Cloud Integration**, providing a future-ready skillset.

Key Learning Outcomes

- ✓ Build robust full-stack applications using Python, Django, HTML, CSS, JavaScript, and more.
- ✓ Integrate **Generative AI models** like ChatGPT via API for intelligent app features
- ✓ Deploy cloud-based applications and services on AWS.
- ✓ Understand large language models (LLMs), sentiment analysis, chatbot development, and AI text/image generation.
- ✓ Hands-on real-world projects and job-ready portfolio creation.
